LINING-OUT STOCK

April 15, 1954

Please note that we use the deeper rose pot so that our potted liners have better roots than when from standard pots. Stock from plant bands will be shipped bare root.

ROOTED CUTTINGS

Approx. May 1954 Delivery

We believe that no better rooted cuttings can be grown than those we send out. We handle and pack with great care so they will reach you in perfect condition.

Success with rooted cuttings, however, depends upon the way they are handled after their arrival and on weather conditions. Therefore, we cannot take responsibility for their growth.

The following well-rooted cuttings will be available about the first of May:
